Summary

Product Manager with **5 years of experience in Product Management**, including **3+ years of experience** building and scaling an **enterprise B2B SaaS product** for the **Peer Review platform**, driving **product adoption, customer value, and growth**. Brings a background in customer requirements analysis, technical solutions, and an **MBA** from TAPMI Manipal, with expertise in **customer discovery, product strategy, AI-driven product innovation, and GTM.**

Work Experience

ProManage.ai

Product Manager 08/2026 - Present

- Managed **customer accounts** for **Midas.AI**, a Voice AI product, serving as a key contact for **requirements, product discussions, and customer need**.
- Led **customer meetings, product demos, and POCs**, understanding **business use cases** and coordinating with internal teams on requirements.
- Supported **customer onboarding, and account engagement**, coordinating **solution delivery, issue resolution, and identifying customer use cases**.

Kriyadocs

Product Manager 08/2023 - 07/2026

- Led the **0→1 development and end-to-end product ownership** of an enterprise B2B SaaS Peer Review platform, driving **product vision, strategy, roadmap, and go-to-market** across Engineering, Design, Sales, and Customer Success.
- **Managed enterprise customer relationships and conducted 200+ discovery workshops and product demos**, analyzing feedback from **10,000+ global users** to uncover pain points and inform the roadmap.
- Created **10+ AI-assisted product prototypes** to rapidly validate concepts with customers, gather early feedback, and accelerate cross-functional alignment before development.
- Owned **product backlog and sprint prioritization across 40+ releases**, translating business and customer needs into **PRDs, user stories, and acceptance criteria** while balancing business impact and customer value in an **Agile/Scrum environment**.
- Used **customer research, product analytics, and usage data** to prioritize high-impact opportunities, driving **35% higher adoption** of key enterprise capabilities through evidence-based product decisions.
- **Improved the submission user experience** by simplifying workflows and eliminating friction, increasing **completed submissions by 20%**.
- Launched an **AI Reviewer Recommendation Engine**, defining recommendation logic and evaluation criteria and iterating on recommendation quality using test scenarios and user feedback, reducing **reviewer identification time by 40%**.
- Delivered **enterprise API integrations** with iThenticate, Copyright Clearance Center (CCC), and other third-party services, and standardized onboarding workflows to reduce **customer onboarding time by 35%**.
- Conducted **market and competitive research** to analyze industry trends, evaluate competing solutions, and identify opportunities that informed **product positioning and long-term direction** for the Peer Review platform.
- Contributed to the Peer Review platform achieving **over $1M in ARR** through strategic product enhancements and close collaboration with Sales and Customer Success.

R Engineering

Solutions Consultant 08/2020 - 07/2021

- **Gathered customer requirements and translated them into technical and manufacturing specifications**, coordinating with engineering and production teams to ensure alignment with customer expectations.
- **Coordinated product and process improvements** by analysing recurring customer issues, assessing manufacturing feasibility, and collaborating with cross-functional teams to improve quality and customer satisfaction.

BS&B Safety Systems

Product Management — Industrial Products 06/2019 - 07/2020

- **Gathered and translated customer requirements** into product requirements for industrial products, aligning product capabilities with customer needs and technical specifications.
- **Conducted market and competitor analysis** to identify industry trends, product gaps, and opportunities for product differentiation.
